The Bank of the Vatican has been accused of laundering USD 200 million by proxy through an Italian creditor, a report indicates.

The allegation of the Vatican bank's financial corruption has been made by an Italian magazine that pointed to the financial institute's purported involvement in stealth fiscal transactions —via several accounts —with Italy's UniCredit Bank, Russia Today television network quoted the Panorama magazine as reporting.

“This corruption is continuing on a regular basis in the Vatican,” claimed Janathan Levy, a lawyer familiar with the bank.

“Again, there's no reason for a religion to have a bank that

does worldwide commercial activities, dealing in gold, dealing in insurance, dealing in property and then hiding behind the Roman Catholic Church,” Levy pointed out.

“I had the privilege to walk inside this bank. It's nothing like a bank,” the Russian news channel quoted another lawyer, Massimiliano Gabrieli, as saying.

“If you go there you deposit or withdraw money without limit, without any kind of receipt for the bank and for the client. All you have is a single card with a number,” he stated.

The British *London Telegraph*, has recently ranked the Bank of the Vatican ahead of the Bahamas, Switzerland and Liechtenstein in banking secrecy.

The Vatican has denied all charges.

the fact that the Vatican has been involved in money-laundering is nothing new. the institution of catholicism has decimated the spiritual pious ways of christianity. vatican can be easily summed as a pagan-infested carnival. they hide behind God, to justify their actions, while stealing holy artifacts and destroying the image of God, Christ and the Holy Spirit.

A lawyer raises an accusation without evidence, an Italian newspaper prints it, a Russian newspaper quotes it. . . and viola! This is your proof that the Vatican is in league with all that is evil?

It appears the Pope has the opportunity to catch the same organization that ushered in the Holocaust under Hitler & Mussolini. They always try to make dirty what is good.

Rothschild is the official Vatican banker, so maybe they are mad this was going on outside their control. The real money laundering and racketeering is going on at the Federal Reserve, and every chairman has been Jewish in my lifetime. Totally defies equal opportunity and diversity mandates. I hope Levy will support an audit of the Federal Reserve.

They forgot to mention, tha Levy, is a jews, and the are always hitting on the catholics, every chance they get, Why not mention, the confetti money printed by the private bank of the Federal Reserve bank in the U.S ? They set the rules and enforce them selectively, and only to their enemies. Why gee, I never seen any Jews, doing charity work for refugees, or in black Africa, just sucking the blood of the idiots who dont know who they are... Hitler was right !!!!
